

I am 49 years old and enjoy listening to Airl very much. I'm positive that this radio station is listened to on a regular basis by my daughter and most, if not all of her friends...and she has many!! Please don't take away something that is an opportunity to hear a good message and replace it with more of what you think people would rather hear. I hope you will make the right decision and keep Airl coming to our community. It's an uplifting experience to listen and hear good news shared when you need it most or when you don't even realize you need it! Thank you for taking the time to hear my comments.
